BED BUG TREATMENT PREPARATION - STEPS:

1. Purchase mattress and box spring and pillow covers/encasements that are approved against bed bugs.
2. Strip beds, remove linens, place in bag for immediate washing in hot water and dryer. Do same with curtains.
3. Take apart bed frames and headboards, mattresses, and boxsprings and stand them up against wall.
4. Remove all clutter.
5. Put garbage and discarded items in a bag and place in an outside trash bin with a cover.
6. Remove and bag all clothing (and stuffed animals) from dresser drawers and closets. Dryclean or wash & dry.
7. Move all furniture at least 2 feet from walls.
8. Remove all electrical face plates, phone jack covers, and light switch covers. Also remove paintings and walling hangings and leave in centre of room. **Do not re-assemble or put anything back until after the 2 week inspection.**
9. Vacuum floors and furniture thoroughly.
10. On the outside of the structure, cut weeds and tall grass, and trim shrubs away from foundation. Clean up garbage. Remove woodpiles from foundation.
11. Remove all pets from the premises and cover fish aquariums with a damp cloth. Turn off air exchanger, air filters etc.
12. You are not to re-enter the premises for at least 4 hours after treatment.

PLEASE CONFIRM WHEN STEPS 1 THROUGH 10 HAVE BEEN COMPLETED,
AND PLEASE ENSURE TO COMPLETE STEP 11 BEFORE WE ARRIVE ON THE
DAY OF TREATMENT.
